Job Description:

How will your work after college impact others? Do you want to be a change-maker? Do you enjoy working with children and teenagers? Do you want to change the future? Southern Teachers can help!

We currently have a high demand for biology, chemistry, and physics teachers. Our schools look for outgoing and compassionate college graduates with strong academic records in studies related to biology, chemistry, or physics. Southern Teachers lists over 3000 openings each year at about 600 independent schools in the South—day, boarding, single sex, coed, rural, urban, nonsectarian, and faith-based.

Southern Teacher's services are personal, proven, and free!

We have positions beginning year-round. Apply to become a Southern Teachers candidate as soon as you can!

Qualifications:

For middle and high school positions, schools focus on candidates' degrees in applicable subject areas. State licensure/certification can be a plus, but it's not a requirement.

Specific training is expected in some areas, however:

- **Elementary-grade teachers and learning specialists must hold state licensure.**
- **Certification is preferred for art, physical education, and music teacher positions.**
- **Librarians and media specialists must hold an MLS or comparable degrees.**
- **School counselors must hold advanced degrees in counselor education.**

Application Instructions:

Go to **SouthernTeachers.com** and submit the online application, your resume, and a cover letter.
